1 April 2011

Dear Valued Customers and Partners:

Our thoughts are with the people of Japan, as they continue the long recovery process from the recent crisis that's engulfed them. Such an event causes us to pause for a moment and reflect on our good fortune, which is often overlooked amid our daily activities. The challenges ahead for Japan are many, as families and communities recover and the local economy rebuilds. Concern with the economic impact of product supply disruptions to both local and global businesses has been threaded throughout the turmoil.

A review of E-T-A's component and raw material suppliers confirmed that E-T-A and its products, for the foreseeable future, have very limited to no risk of supply chain delays due to the tragic events in Japan. We will continue to monitor the long-term effects and implications of this crisis and take the appropriate actions to ensure the continuity of supply of all E-T-A products.

If you have further questions, please do not hesitate to contact E-T-A at 1-800-462-9979

Sincerely,

A handwritten signature in black ink, appearing to read 'William Stewart'.
